

Digel-Heat Infrarotheizungen

Glass infrared heating

Features

Surface:	ESG safety glass
Back:	Powder coated sheet steel
Scope:	Direct Heating
Surface temperature:	About 90 ° C to 100 ° C
Voltage:	230 volts, 50Hz
Colour:	White and black,
Protection type:	IP 54
Protection class:	I
Temperature protection:	1-3 pieces, depending on the dimension of the heating.

Zertifikate:

Sizes and output power

Description	H x W (cm)	Output (ca.)	Weight (kg)
Glassheater 350	90 x 30	350* +/- 8%	7,5
Glassheater 540	80 x 60	540* +/-8%	12,5
Glassheater 750	90 x 70	750* +/-8%	16,2
Glassheater 900	100 x 80	900* +/-8%	20,3

* Rated power at 230 volts

Installation

Wall
